Multi-Purpose Outdoor Enclosure

Stock Code: EN-66

FEATURES

- Enclosure for outdoor installations
- IP66 Weatherproof
- With pole mounting bracket (Up To 50mm – 1.97 inches)
- Weatherproof RJ45 Connector
- 20m Cat5 Cable Included

DESCRIPTION

This multi-purpose enclosure is specifically designed for harsh outdoor applications. The enclosure is completely weatherproof and has an IP66 outdoor rating against ingress of water or dust. Ample internal space is provided to suit most electrical components and applications. These components can be neatly and professionally installed into the enclosure with the adhesive internal mounting feet provided.

The enclosure is ideal for outdoor radio applications as it includes a weatherproof RJ45 connector and makes provision for up to four N-Type Connectors to be mounted on the base of the unit.

A pole mounting bracket is included which allows the enclosure to be mounted on poles up to 50mm (1.97 inches) in diameter. This mounting bracket allows vertical adjustment of the antenna between +45 Degrees and -45 Degrees.
